LOCAL TRADING'S ROSEATE OUTLOOK

Financial Conditions Possibly Better in Utah Than Elsewhere In the Union.

NO SCARE ON PROHIBITION.

Realty Man Receives Wires Requesting Business Locations When the Saloons Are Vacated.

The financial local outlook continnes to be good, although somewhat dull, and there is nothing to cause any uneasiness in the popular mind. It is perhaps true that conditions here are as good, if not better than those in any other state in the Union. J. C. Cutler, Jr.'s weekly local letter says: Business conditions here are better than they are in the east, and this year should see much improvement to nearly all lines of trade. The institutions that have been built up by the people of Utah are like the "house that was built upon the rock"-solld, as a rule, and have good reserves, so that when the "storms" of depression come the business houses are able to weather them. The good people of the east are beginning to find this out and are sending money here for investment, and many people will come here as time goes on and bring their means and live in fair Utah, "The Queen of the West."

On the commercial stock and bond market the main feature of the week was the interest manifested at the meeting of the Consolidated Wagon & Machine Co.. when, after considerable discussion, it was unanimously dediscussion, it was unanimously decided to help enlarge the company's operations by increasing the capital stock from \$1,500,000 to \$2,500,000. The new stock of \$1,900,000 will only be issued gradually. It was also decided to retire the common stock for processing the common stock for company stock paying preferred, by common stock paying \$5.00 per share. The reports of the officers showed the company to be in excellent condition. Dividends of 8 per cent payable 2 per cent quarterly, for the coming year have been declared.

clared.

The splendid run that the UtahIdaho Sugar Co. has had and the
heavy production of sugar caused the
price of the preferred stock to adprice of the preferred stock to advance in price and sales were made at \$8.80 and \$8.85 per share. The Amalgamated Sugar Co. also had a good season and both common and preferred stocks show advances. The season and both common and pre-ferred stocks show advances. The common advanced to \$182.59 and the preferred to \$96.00 per share. All the \$100.000 worth of 6 per cent bonds of the Utah County Light & Power Co. have been sold and this institution is prospering and paying 8 per cent dividends on its preferred stock. The last report of the Home Fire Insur-ance Co. shows a large reserve. The banks of our city are doing

ance Co. shows a large reserve.

The banks of our city are doing well and there was not one failure during the panic. The banks and other institutions scattered throughout the state show good reports.

BETTER CONDITIONS.

In outside matters, things are moving conservatively, yet surely toward better conditions. Mr. Gompers claims there are 2.000,000 men out of work in the United States, and other authorities place the figure even higher. Doubt is expressed in the Salt Lake banks of the accuracy of this state-ment, although there is no doubt that there are many men idle. One of most interesting events of the week is a statement giving the de-inited account of the operations of the City National bank of New York in its new quarters. It is claimed that this is now the largest bank in the world, distancing even "The Old Lady of Threadneedle Street," volent the Bank of England, as well as even the Bank of France. Salt Lake banking men say there can be no doubt that, taking into account the enormous na-tional wealth of the United States, in banking as well as in industrial mat-ters. America easily leads the world. One noteworthy feature is the rapidity with which Chicago is coming to the front as a financial center. Situated front as a financial center. Situated in the center of the richest section of the country, it is only a question of time before that city will rank equal with New York in financial and commercial importance. The demand for coans locally is good with rates unchanged. There seems to be aposed. changed. There seems to be enough money to carry the situation conservatively.

VIEWPOINT OF AUTHORITY. Henry Clews in his last circular has

this paragraph of interest:
"It is very apparent that we are feeling the reactionary effects of the more plainly than at any time since it occurred. There is more hesi-

Walk To Your Meals Like A Man

Eat What You Will and Learn to Enjoy Food and to Digest It.

HERE'S THE SECRET, FREE,

Make up yo'r mind after reading this that you will let the next meal hold no terrors for you.

You can enjoy it. You can digest it.
All that is needed is to give nature the
Juleas she lacks, to give the stomach a
chance to remove the terrible irritating
acids, alkalies and gases which turn
food and nourishment into gas and decomposition.

When a system is run down and de-pleted it needs building up. Ashes won't rekindle a fire, and wrong diges-tive fluids will not take proper juices from food, no matter how good the food is.

WHY YOU SUFFER WITH DYSPEPSIA

Also Tells of the Most Certain Home Cure for All Stomach Trouble and Indigestion.

TAKE SOME DIAPEPSIN.

Gives to Most Chronic Case Relief in Five Minutes and Thoroughly Regulates Your Stomach Before You Realize It-Harmless and Tastes

Like Candy,

Does it ever occur to you how busy Does it ever occur to you how busy that little stomach of yours is? It actually only holds three pints, though in one year you force it to take in 2,500 pounds of material, digest it and prepare it for assimilation to the blood. Do you wonder at the number of cases of Indigestion and Stomach trouble? You crowd it with steaks and pastry, irritate its juices with spices and acids and expect this little four-ounce mill to do its work.

Is there any wonder that your food passes undigested, or lays like a lump

Is there any wonder that your food passes undigested, or lays like a lump of lead in the stomach? That everything you eat turns to acid. Stomach gas and Stomach poison, putrefying the intestines and digestive canals, causing Billousness, Headaches, Dizziness and Indigestion Heartburn, Nauscous Breath, constipation and other more dangerous symptoms?

Call your disease what you will-Indigestion, Gastritis, Nervousness, Dyspepsia, Catarrah of Stomach, etc.—you know the real name, the real disease is fermentation of the food you eat—a sour Stomach, which belches gas and erupts undigested food or causes a felling of nausea and miserableness.

All these miseries vanish promptly when you stop this food fermentation. Take fifty cents to your Pharamacist for a case of Pape's Diapepsin. Eat a triangule, and five minutes later your Stomach will do what a healthy Stomach should—that is, turn every bite you eat into bodily nourishment and without you realizing that you have a Stomach. One triangule will digest all the food you eat without the aid of the stomach, because it contains just the elements found in a good, strong, healthy stomach. a good, strong, healthy stomach.

tation in spirit than has been experienced in many months. By general consent the tariff is blamed for this consent the tariff is bladmed for this state of affairs; yet, while an element of delay and uncertainty, it cannot be held responsible for many of the signs of depression which are daily coming under observation. Iron and steel products are not drooping because of an impending change of the tairff, especially for pothing butter! pecially for nothing hurtful is expected in that direction. Iron and steel prices are declining simply because of lack of demand. Railroads are small prices are declining simply because of lack of demand. Railroads are small purchasers, notwithstanding the ease with which they can raise money, and our finished steel plants are running to about only 60 per cent of their capacity. Buyers have been distrustful because steel prices were held up in face of depression after the panic, and they remain distrustful because steel prices were held up in face of depression after the panic, and they remain distrustful because they know that prices depend more upon artificial regulation than upon the open play of campetition—which is always a safer test of real value than the arbitrary decision of great combinations. Copper. too, is weak for similar reasons. Tariff has nothing to do with this commodity, but prices have been so long governed by artificial conditions that buyers have lost confidence and will not take hold except at lower prices. In this they are encouraged by large supplies, by the falling off in new building enterprises and by the general feeling that the country, whether it likes it or not, must endure a period of further quiet and readjustment."

NOTA BIT SCARED.

The real estate situation continues

NOT A BIT SCARED.

NOT A BIT SCARED.

The real estate situation continues hopeful notwithstanding the senseless wall from short sighted members of the realty brotherhood that prohibition would wreck the state. One prominent realty firm has deals on hand aggregating \$300,000, and shows telegrams from half a dozen large cities requesting the firm to notify the senders as soon as the threatened vacancy of 130 stores in Salt Lake occurs, in case of prohibition legislation, as they stand ready to pick these opportunities right up. It is also a fact that a well known realty dealer who claims to personally favor prohibition, but for commercial reasons has taken a stand against it, has now in his possession a similar telegram, but is saying nothing about it. It is beginning to be realized that for every husiness site vacated because of prohibition, there will be half a dozen bidders from outside.

The hardware reports collections and general business good, considering the time of year.

general business good, considering the time of year. Many orders for spring goods are being shipped out, these in-cluding car lots of fencing and rope for reshipment to retailers from dis-tributing points. There is also a strong call for household goods.

tributing points. There is also a strong call for household goods.

The lumber trade is interested over the successful meeting of the western retail dealers at Spokane, and who are now returning home. Z. E. Hayden of Washington state was chosen president, in place of the retiring executive. George E. Merrill of this city, who has held down the chair for three years, and is anxious to give someone else a chance to try his hand at it. General conditions on the coast are anything but satisfactory. There are few people in this section who really appreciate the damage suffered in the northwest, especially in Oregon, on account of the late series of storms.

BONDS.

CAPITAL STOCK IS INCREASED.

Local Firm Prepares to Extend its Field of Operation.

At a meeting of the stockholders of the Consolidated Wagon & Machine Co., held on Monday, Feb. 8, the capital atock of the company was in creased from one and one half million to two and one-half million dollars. The resustance was the preparable growth of the property was the property of the control of the con increase was the remarkable growt agricultural sections in these m tain states; thousands upon thous of acres having been added during past few years. Recently all the citors from John to the control of the control o

harvested.

By careful and conservative methods this company has built a business of no mean proportions, and today its stock is considered to be among the most attractive on the market. It shows a quartery of a century of steady growth and improvement, with very satisfactory dividends to all its stockholders. In addition to a strong organization and the best representative line of agencies to be had, the Consolidated Wagon & Machine Co. has secured the good will of the people, which may be proudly reckoned as an asset.

The directors of the company have decided to offer for sale, to the stock-holders, 3,000 shares of the increased capital stock, pro rata at par. Already requests are being made for the remaining stock after the present stockholders have been remained. stockholders have been supplied.
